Dear Bradley Zhao,

The Centre for Education in Mathematics and Computing's mathematics competition season is well under way across Canada. The results show that **Zi hang Yin** was an outstanding achiever in the 2014 Cayley Contest.

This is an impressive achievement from which your school, and particularly your Mathematics Department, should derive great satisfaction. On behalf of the CEMC, I extend congratulations to you.

Students achieving similar results have gone on to studies in all areas, principally the mathematical sciences, and have established excellent records. In recognition of Zi hang's performance, we are pleased to extend an invitation to him to attend the annual Lloyd Auckland Invitational Mathematics Workshop (formerly called the Canadian Mathematics Competition Seminar) from June 1 to June 7, 2014. Details of the workshop are enclosed.

Sincerely,

Jen Nelson  
Director, Lloyd Auckland Invitational Mathematics Workshop
